Technological Initiatives to Strengthen Operations

- ❖ In FY19, the company launched an integrated mobile interface for its MFI field staff to enable seamless on-boarding of MFI customers by digitizing & standardizing the loan origination and appraisal process. **‘This technology has been successfully implemented across all the MFI branches now.’**
- ❖ Rolled-out the **‘Jayam’ initiative** across the company’s MFI operations to transform business processes from physical to digital. **‘As a part of this initiative, the ‘integrated loan origination system (LOS) & loan management system (LMS)’ is hosted on the Cloud. This system manages and tracks originations and recoveries on a real-time basis.’**
- ❖ In the next phase, the company will be implementing these initiatives for its MSME & 2W operations as well. However, the next phase will a bit delayed due to the Covid disruption
