Q4-FY23/FY23 Key Operational Highlights

- In Q4FY23, the Company delivered a strong revenue growth along with a positive margin on the back of a moderate increase in ad spends in the industry and due to a lower base effect compared to same quarter last year
- However, we believe that the advertising demand will be subdued in Q1 FY24 due to inflation, looming global recession, slow down of funding for new-age advertisers and dampened consumer demand; this coupled with continued investments in B2C initiatives will keep the margins under pressure
- The contribution of B2C revenue as a percentage of total revenue has doubled in FY23 vs. FY22
